It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow older. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old.

Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents as <u>they</u> are our first teachers in our life.

No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them. So, it is our duty to help them when they need us because they are not young enough to handle things on their own like before.

❖ **Choose the best answer.**

40. The pronoun 'they' in second paragraph refers to….

a) kids **b)** elders

c) our parents **d)** future generation

❖ **Answer the question**

Dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word ‘dictionary’ comes from the Latin ‘dictio’ (‘saying’).

There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words. Dictionaries which explain what words mean give a clear ‘definition’ of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose.

There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English.

	When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning. A word like 'right' has several meanings in English, for example, 'correct' and 'the opposite of left'. A word like 'present' may be used as an adjective, meaning 'not absent', as a noun, meaning 'gift' or as a verb, meaning 'give'. Words with different meanings exist in other languages, too. A good dictionary lists all the meanings of words to help people find the meaning that they look for. A complete dictionary also tells you about the origin of words and the story behind them. For example, the words like 'pajamas', 'bazaar' and 'paradise' entered English from Persian. ❖ **True/False** **45**. A word starting with 'p' appears before a word starting with 'm' in a dictionary. **a) True** **b) False** **46**. The word 'bazaar' is not English, originally. **a) True** **b) False** **47**. 4	**متن زیر را بخوانید و به سوالات هر قسمت پاسخ دهید.** Recent research has shown that the use of social media can be harmful to mental health. Spending too much time on sites like Facebook and Instagram can make you feel more anxious and depressed. That's because social media often only shows what its users want to see. For example, if you like to go on vacation, you'll see a lot of posts from your friends who have recently traveled. This can make you feel that other people are having more fun than you. One study has found that people who use social media for long periods of time every day are usually more depressed and lonelier. Other studies have also found that people who spend a lot of time on social media often do not get enough sleep because they stay up late. Lack of sleep can cause mental problems such as depression and anxiety. Although social media can be a fun way to connect with friends and family, it can also be a source of stress.
