4	متن زیر را بخوانید و به سوالات به صورت خواسته شده پاسخ دهید. A good dictionary gives the user information about the words such as spelling, pronunciation and definitions. It also gives examples of how to use the words in sentences correctly. Therefore, it is essential to know how to use a dictionary effectively by using these helpful tips. ***Choose the Right Dictionary***. There are many different types of dictionaries such as learner's dictionaries, general dictionaries, picture dictionaries, etc. Therefore, first identify your needs. Without choosing the right dictionary you cannot meet your language needs. ***Learn the Abbreviations***. Different types of abbreviations are often used in the definitions for a word. This can be confusing if you do not know what the abbreviations stand for. ***Learn the Guide to Pronunciation***. If you immediately jump into using the dictionary without understanding the pronunciation guide, it can be difficult to figure it out. ***Learn the Guide words***. These are two words at the top of each page that show the first and the last entries on the page. These words will help you find the word you are looking for in the right letter section. 43. How many types of dictionaries are there? 44. What are the guide words? 45. A good dictionary provides you with the information about words. a.True b.False 46. If you don't choose the right dictionary for yourself, it won't certainly meet your language needs. a.True b.False 47. When we say 'adj.' stands for 'adjective' actually we are talking about definition. a.True b.False 48. If we learn the pronunciation guide, it won't be difficult to use our dictionary. a.True b.False	**14**
3	متن زیر را بخوانید و به سوالات به صورت خواسته شده پاسخ دهید. Solar energy is the key to a clean energy future. The sun provides more than enough energy to meet the whole world's energy needs, and unlike fossil fuels, it won't **run out** anytime soon. Solar power is a power generation method that converts energy from the sun into electricity. As a renewable energy source, the only limitation of solar power is our ability to turn it into electricity in an efficient and inexpensive way. No greenhouse gases are released into the atmosphere when you use solar panels to create electricity. And because the sun provides more energy than we'll ever need, electricity from solar power is a very important energy source in the move to clean energy production. ادامه سوالات در صفحه بعد	**15**

Maryam Zargar

	Page 5 The main advantage is that it is a renewable, clean source of electricity. Solar power is also scalable. This means that it can be used in an industrial scale or it can be used to power a single household. When it is used on a small scale, extra electricity can be stored in a battery so it can be used later. 49. What is solar power? 50. What does the word **"run out"** in line 2 mean? a. magnify b. store c. absorb d. finish 51. The problem with solar power is that it is expensive. a. True b. false 52. Solar power releases greenhouse gases into the air. a. True b. False
