3	متن زیر را بخوانید وبه انواع سوالات داده شده درهر قسمت پاسخ دهید. It may be known that recycling helps keep tons of waste out of our landfills. But did you know that recycling helps save energy, too? The things we recycle, like drink cans, newspapers, glass, and cardboard can be used to make new products. Companies that make new products from recycled materials use 30 percent less energy. That 's because they don't have to process the raw materials from scratch. For example, a company called Cedar River Paper makes cardboard boxes by recycling paper products. If Cedar River Paper didn't use recycled materials, **they** would use up a lot of trees – and a lot of energy to cut them down, and transport them hundreds of miles. Everything that is recycled at home and school helps save energy – so keep up the good work. You can keep doing good work when you 're buying things, too. The next time you go to the store keep an eye out for products that say " Made from recycled ……." on the package. **Questions.** 73.What is suggested in the text to do when shopping? 74. Recycling makes more waste in landfills. a) **True** b) **False** 75. Energy can be saved by recycling. a) **True** b) **False** 76. Which word is not mentioned in the passage ? a) cardboard b) glass c) stone d)newspaper 77.
