2	متن زیر را با دقت بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. Alternative energy refers to energy sources that can replace fossil fuels. One reason to use **them** is reducing pollutants and greenhouse gases like carbon dioxide and methane. Wind power is one of these energy sources. Wind power is the ability to use wind to move the blades of wind turbines. This movement can be converted into electricity with the help of an electrical generator. Wind power has some advantages (benefits): there is no pollution, it never runs out (finish), and farming can be still continued on the same land that wind turbines are installed. It has some disadvantages, too. One disadvantage is that if the wind does not blow strongly, you cannot get enough power. Also, large wind farms can have a negative visual effect for people who live nearby. **True/ False** 45. Alternative energy sources are clean. a. True b. False 46. Wind turbines can be installed only in places that the wind's speed is high. a. True b. False 47. Farming cannot take place on the same land that wind turbines are installed. a. True b.
