Zohreh: This weekend is my birthday. I have invited everyone but Mina.
Maryam: Why not? If I were you I would certainly invite her. As far as I know you were close friends at school.
Zohreh: Yes. But she has moved to another neighborhood. If I had her address, I would invite her.
Maryam: What a pity! If I knew that sooner, I could help you.
Zohreh: How?
Maryam: I could check it with my sister. She is her mother's friend.
Zohreh: Can you call her now?
Maryam: Unfortunately, she is not available till next Wednesday. Sorry.

The most common type of clean energy is the solar power. Solar energy is produced by the radiation that reaches the earth. People have used the sun as a heat source for thousands of years. Iranians, for instance, use special designs and arrangements of windows, balconies and yards to get the most sunshine. Different types of materials might also be used in building the houses. This keeps people warm during cold seasons and cool during hot days of the year. Nowadays, solar energy can be converted into other forms of energy, such as heat and electricity. Solar energy might be used for heating water and air in homes, buildings, or swimming pools.

I had ***complete*** freedom .I also loved the studying. It was much more ***interesting*** than studying at school.

Dr. Asadi is answering this important question: "why is it important to care for our elders?" I think first of all we need to remember that they are our mothers and fathers, and our first teachers. They teach us how to love, how to care, how to forgive, and how to accept. Second, elders have more knowledge and wisdom than any one of us. They've come so far and they've learned so much, we have a responsibility to learn from that wisdom. But the most important thing is their experience. We may or may not know of all the ups and downs they've faced in life but they've definitely gained experience that is worth respecting and learning from. Our elders may hide much pain from us because they don't want us to feel the pain, the least we can do is appreciate them for all they've gone through and learn from their insight into situations.
